

ELIJAH CHARO

Data Engineering | Power Platform & BI Specialist

(210) 955-4367 | elijahcharo285@gmail.com | San Antonio, TX | <https://www.linkedin.com/in/elijah-charo-255889207/>

CAREER SUMMARY

Mission-driven Data Engineer with 4+ years of experience supporting enterprise-scale Air Force operations through SharePoint administration, workflow automation, and Power BI reporting across NIPR, SIPR, and JWICS environments. Skilled in Microsoft 365, Power Platform, and secure data engineering practices with a strong foundation in knowledge management, FOIA, and records governance. Proven ability to design scalable, automated solutions that enhance mission readiness and operational efficiency. Completing a B.S. in IT Management at Western Governors University and pursuing PL-300 and CompTIA Security+ certifications.

TECHNICAL SKILLS

SharePoint Administration (Modern & Classic) | Power BI Development | Power Automate Workflow Engineering | Power Apps (Canvas Apps) | Data Modeling & Metrics Tracking | FOIA & Records Management | Microsoft 365 (NIPR/SIPR/JWICS) | Nintex Workflow Development | API Integration (Basic) | HTML/CSS Customization | Secure System Administration | Process Automation & Optimization

PROFESSIONAL EXPERIENCE

DATA ENGINEER | United States Air Force / 16th Air Force | San Antonio, TX

Dec 2022 – Present

Clearance: Active TS/ SCI

Administered and maintained a SharePoint site collection of **300+ sites** across NIPR, SIPR, and JWICS, ensuring secure, uninterrupted operations in a classified environment. Contribute to multiple Power Apps and workflow-based solutions, supporting full lifecycle development from requirements to deployment. Ultimately drive data analyst/engineering work roles to create solutions and bridge gaps between data, driving insights/ key decisions for the 16th Air Force.

- Resolve SharePoint service requests and user tickets, including list/library creation, UI updates, and web part customization using HTML/CSS.
- Manage SharePoint Designer and Power Automate workflows supporting **49,000+ personnel** across the 16th Air Force.
- Develop and deploy solutions using Power BI, Power Automate, Power Apps, and Microsoft Forms, with primary expertise in SharePoint and Power BI.
- Build interactive dashboards and reports, including API-based integrations aligned with Air Force data-driven decision-making initiatives.
- Partner with full-stack Microsoft developers to deliver a tasking solution integrating Power BI dashboards, Power Apps interfaces, SharePoint data, and **14 custom Power Automate flows** built within 3 months.
- Maintain legacy SharePoint (classic) environments on Intel Share, including advanced Nintex workflow development and secure site creation.

KNOWLEDGE MANAGER | United States Air Force | San Antonio, TX

Dec 2022 – February 2024

Clearance: Active TS/ SCI

- Supported FOIA, records management, publications, and forms programs for the entire 16th Air Force HQ subordinate wing commands.
- Subject matter expert on 508 compliance with federal and DoD records and websites, ensuring retention standards and information governance policies.
- Delivered training and briefings on knowledge management processes/ SharePoint site content management training, and digital organization.
- Built foundational expertise that transitioned into advanced data operations and M365 automation responsibilities.

PROJECTS

Enterprise Tasking Automation System (2024)

- Collaborated with full-stack Microsoft developers to build a tasking solution integrating Power BI dashboards, Power Apps interfaces, SharePoint data, and **14 Power Automate flows**.
- Enabled real-time task visibility, automated notifications, and streamlined reporting for leadership.

Power BI Operational Dashboards (2023–2026)

- Designed and deployed dashboards supporting mission readiness, personnel tracking, and operational metrics.
- Integrated API-based data sources and SharePoint lists to support data-driven decision-making.

SharePoint Modernization & Workflow Migration (2023)

- Migrated over 300+ legacy SharePoint (classic) solutions to modern environments.
- Rebuilt Nintex workflows and automated processes using Power Automate.

Power Apps Development (2023–2024)

- Contributed to multiple Power Apps solutions, including forms, approval workflows, and data-driven interfaces.
- Supported full lifecycle development: requirements, design, testing, deployment.

EDUCATION

BACHELOR'S DEGREE | Information Technology Management | Western Governors University 2026 – Current (5 courses to completion)

CERTIFICATIONS/CLEARANCE

Top Secret Clearance - Active

PL-300: Microsoft Power BI Data Analyst Associate - In Progress

CompTIA Security+ - Planned

AWARDS & RECOGNITION

United States Air Force Achievement Medal for contributions to innovation

Squadron/Group recognition for “Outstanding Data Operations Airman.” Multiple quarterly award winner

EPR-documented contributions to enterprise workflow and dashboard development
